NOMINEE STUDENT GAME OF THE YEAR SGA 2024

NOMINEE BEST ART SGA 2024

PROFILE

Hello World! My name is Ebben, and I am a passionate game programmer. I focus on programming gameplay mechanics and player mechanics. As well as interested in AI, profiling and optimization, systems, and tools programming. I also enjoy making shaders and UI. My goal is to make great, flawless, memorable game mechanics that leave the players speechless.

EDUCATION

Computer Science: System Development
Högskolan I Skövde

Skills:
- Java, C++
- OOP, Procedural programming
- Time management, critical thinking

Yrgo

Skills:
- C#, C++, Angelscript, BluePrints
- OOP, Data oriented programming
- Game design, teamwork, project management, Problem Solving
- Unity 2D , 3D, VR, Unreal Engine 5 3D, Monogame
- Github

Computer Technology
University of Linnæus

Skills:
- Python, Discrete Math, IOT
- Algorithms & structures
- Gitlab

WORK EXPERIENCES

2024-2025 **Housefire Games**
Game Programmer - Intern

I started off being responsible for optimizing and modifying old scripts, then I was responsible for modifying and creating player & gameplay mechanics (e.g., head-bobbing). I also got the chance to learn and create my own custom spline and editor tools. Which helped in time consumption. The team gave me a chance to be part of their design meetings and design puzzles and gameplay moments.

2024 **Elva Entertainment**
Game programmer

I help a new indie start-up. Designing and making their debut game called "Home Sweet Gnome" I gained a business certificate from Drivhuset, enrolling together in a LevelUp program. I was responsible for creating the fundamentals of the building and interacting with UI, in which i created a custom grid-system.
